

Sam K

Full Stack Web Developer | MERN Stack | WordPress

(469) 902-8090 work.sam93@gmail.com <https://itssam.dev/> Dallas, TX

SUMMARY

A seasoned Full-Stack Web Developer with 7+ years of experience working with agencies and direct businesses. I specialize in WordPress CMS, builder-based, and custom development, having worked on projects ranging from small portfolio websites to multi-store e-commerce platforms and web applications. My expertise includes custom theme and plugin development, REST APIs, third-party integrations, and marketing funnels. Additionally, I have experience with React and Node.js for server-side management, optimizing website and application performance.

WORKING EXPERIENCE

Full Stack Web Developer

02/2024 - Present

[BumpUp Tech](https://bumpup.us/)

<https://bumpup.us/>

I joined BumpUp Tech as a Full Stack Web Developer, overseeing multiple projects, leading scrums, and ensuring alignment with business goals, technical feasibility, and code quality. My key responsibilities include:

- Develop and customize WordPress websites, including theme and plugin development.
- Develop dynamic websites with a React front end and a WordPress back end for seamless functionality.
- Integrate Gemini AI to automate WordPress functionalities and server-side processes for improved efficiency.
- Manage hosting, deployment, and API integrations on Azure servers to enhance performance and functionality.
- Develop, test, and maintain dynamic web applications using PHP.
- Create and maintain PHP-based dashboards for managing website data and functionality.
- Build a fully custom Laravel portal to manage thousands of WordPress sites from a single interface.

Sr. Web Developer/Programmer

04/2022 - 02/2024

[JES Holdings](https://jeshholdings.com/)

<https://jeshholdings.com/>

I joined JES Holdings as a Sr. Web Developer/Programmer, where I contributed to a variety of projects. JES operating in real estate and financing industry, and I was responsible for website development, API integrations, DevOps, and Server Management.

- Build scalable, interactive web applications using React.js with reusable, modular components.
- Managed state efficiently using Context API, Redux, or React Query for optimized performance.
- Managed cloud deployments on AWS and GCP, ensuring performance, security, and scalability.
- Implemented marketing automation and funnels using HubSpot, HubSpot API, and CRM tools.
- Integrated Zoho CRM, third-party logistics (3PL) solutions, and e-commerce analytics for optimized operations.
- Configured Google Tag Manager (GTM) and Google Analytics 4 (GA4) for accurate data tracking and insights.
- Automated deployments, version control, and workflow management using DeployHQ, Buddy Pipelines, and Code Sniffer.

Sr. WordPress Developer

11/2019 - 03/2022

[Communify](https://communify.me/)

<https://communify.me/>

As a Sr. WordPress Developer at Communify, I played a crucial role in developing and maintaining WordPress websites.

- Converted design mockups into fully functional, responsive, and optimized WordPress websites.
- Developed and customize e-commerce websites, integrating secure third-party payment gateways.
- Build and maintain custom WordPress themes and plugins to enhance website functionality.
- Optimized website speed, security, and performance using WP Engine and other industry tools.
- Develop and customize Shopify websites, including front-end theme modifications.

Front End Developer

08/2017 - 10/2019

[Bottle Rocket Boom](#)

At Bottle Rock Boom I worked as a Front-End WordPress Developer, building and managing custom websites for clients. I handled multiple projects simultaneously and successfully completed them.

- Built dynamic website features using Elementor, including detailed pages, advanced filters, and CSS animations.
- Developed custom WordPress themes and integrated APIs & third-party services to enhance functionality
- Developed a dashboard for managing and tracking support tickets on WordPress.
